

AIRPORT LINK MEETING

19 AUGUST 2009

KEDRON AND WOOLLOOWIN COMMUNITY REPRESENTATIVES

Item 4 - "Who has Bore Log APL06?"

Michael Brown
David Lynch (CNI) Chair
Col Harrington
Wendy George (CNI)
Robert Gray
Russ Beynon (TJH)
Anna Dick
Deirdre McCue (TJH)
Brad Carswell
Nicola Mitchell (TJH)
Matt Hynes
Galen Mitchell (TJH)
Peter Price
Charles MacDonald (BrisConnections)
Brian Nally
Patrick Southam (BrisConnections)
David Vedelago
Greg Davis
Bill Powley
Glenn McCarthy
Toby Murdoch
Caroline and Rod Berry

Community

- . Community representative physically places the Woolloowin Worksite Request for Project Change on the table in front of all attendees, open exactly 35 pages from the back of the document at the Borehole log known as DT17A.
- . Community representative explains this is the equivalent documentation the Community have requested for APL06.
- . Community representative explains that David Lynch says CNI do not have it, but Charles MacDonald indicates CNI do have it.
- . Community representative asks Charles MacDonald where this information is.

CNI/BC/TJH

- . David Lynch attempts to explain some issue with confusion around the information requested.
- . David Lynch indicates the information on APL06 is in the EIS.
- . Charles MacDonald indicates the document on the table is a detailed Borehole Log of, as you said, DT17A.

- . Charles Macdonald indicates the information in the EIS is not as detailed as the information provided in the Wooloowin Worksite Modification Request for Project Change document for borehole log DT17A.
- . Charles MacDonald indicates borelogs are often the proprietary property of BC or TJH, but APL06 is not.
- . David Lynch indicates APL06 was undertaken by Brisbane City Council.

Community

- . Community representative asks whether CNI have a copy of the equivalent information for APL06, as is on display in front of all attending the meeting for DT17A; exactly 35 pages from the back of the Wooloowin Worksite Modification Request for Project Change?

CNI/BC/TJH

- . David Lynch indicates CNI do have this information.
- . David Lynch asks whether there is some information on APL06 that the Community are specifically looking for which is not available in the public record.

Community

- . Community representative indicates, absolutely, we are after what is on the table in front of us now.

CNI/BC/TJH

- . Charles MacDonald indicates he can show the Community the requested document at his office but a copy cannot be provided.

Community

- . Community representative indicates the Community require a copy for independent evaluation.
- . Community representative indicates if there was any ambiguity or question around what we were after it would have been reasonable to come and ask.
- . Community representative reiterates the information required to establish the validity of page 38 in the Wooloowin Worksite Modification Request for Project Change is not available in the EIS.
- . Community representative indicates we requested information on Borehole log APL06 over 4 weeks ago in order to have a reasonable opportunity to evaluate the integrity of page 38.

MEETING: Community with CNI, BC, TJH at AirportLink Office, Lutwyche, 4pm, Wednesday 19 August 2009

- . Community representative asks David Lynch whether, in light of this, the CG's ruling should have an extension of deadline.

CNI/BC/TJH

- . David Lynch indicates in his opinion the deadline should not be extended to allow for the fact the Community has been denied this information for over 4 weeks.
